

Dear colleagues,

We thank you for your interest in our scientific event **1ST INTERNATIONAL ANIMAL HEALTH SCIENCE CONFERENCE– THE BEEKEEPING CONFERENCE – NEW ADVANCEMENTS AND CHALLENGES IN THE BEEKEEPING WORLD**, to be held on November 4 – 6 2010 at the ICDA (Institute for Apicultural R&D) Conference Hall.

Due to the holiday period, in order to facilitate the participation of all the interested scientists, we want to inform you that the terms for abstracts and full papers submitting were postponed till September 15th, October 1st 2010, respectively.

We are also pleased to announce that the modalities to present the papers are: oral, poster or virtual.

The virtual presentation represents a new modality for those who cannot attend the conference due to different reasons.

In the virtual presentation situation the author will motivate this option and will send together with the full paper a PPT presentation (eventually with an attached sound).

All the other conditions remain unchanged according to the first circular (the registration fee, editing and publication) and the author will receive by mail the conference materials (map, edited papers).

We remind you that the full papers will be published in a special volume (proceeding) indexed in international data bases (IDB) – EBSCO host, EBSCO Discovery Service, and Contemporary Science Association Databases.

This scientific event is part of a greater event <THE 7th WORLD CONGRESS ON THE ADVANCEMENT OF SCHOLARLY RESEARCH IN SCIENCE, ECONOMICS, LAW, AND CULTURE>, which will take place in November, 2010, in New York.

We will be much honoured to meet you at this conference and we are looking forward for your registration and participation.

The details regarding this event are available on the following websites:
